

ANA655 -Project - Part 2 – Operational Data source

Team:

Aditi Bhujbal, Stefan Francisci, Shila KC and Jennifer Knight

Department of Engineering and Computing, National University

ANA 655: Datawarehouse Design and Development

Instructor - Dr. Barbara Lauridsen

June 09, 2022

Modifications in existing model:

- 1) Modified name of all entities to plural e.g. Products, Employees, CusOrders.
- 2) Added new attributes in **Purchases** table – *Quantity and PurchaseTotal*.
- 3) Added new attributes to **Products** table – *ProdBrand and ProdPrice*
- 4) Added new attribute to **CusOrders** table – *OrderTotal*.
- 5) Removed 'PymMthd' attribute from **CusOrders** table and added 'OrdID' to **Payments** table to connect the two tables.
- 6) Added new attribute to **Payments** table - *PymRefNum* and set it as primary key.
- 7) Removed 'primary key' constraint from 'PymMthd' attribute in **Payments** table.
